F. Schorr nabbed the Laurel handican burgh National League base ball team of a mile with surprising ease. It was played eleven innings to a tie with a race of \$7,500 in added money, and in Havana today, the game being called a common gallop the winner splashed home over a half dozen lengths in front off third. Lucullite, pride of the attensive racing establishment of Sam Hildreth, was the big disappointment of the race. Covered with the dark mire

Sir Barton, Milkmaid. Damask and Hauberk were withdrawn.

The Porter, a wonder horse in the mud, was given a confident and brilliantly judged ride by O'Brien. Billy Kelly was showing in front by a slight margin going around the first bend, but The Porter was close in behind the pace. Going down the backstretch Sun Briar quickly nabbed the leader, and it was then that O'Brien decided to let his mount run a bit. Loftus, with Billy Kelly, moved up at the same time, and for a while the two raced like a team. At the head of the stretch The Porter shook off all opposition and came away cantering. When beaten, Loftus looked back to discover that nobody had a chance of overtaking him for the place, and he also eased up. Sun Briar was tiring rapidly, but had no trouble keeping the others out of the money. O'Brien and The Porter were given a great hand by the big throng as they returned to the scales.

The Car Men Say Combines Small Car Economy With Costly Car Quality at Moderate Price

## the Essex?

There is an enchantment about the Essex that intimacy does not dispel.

For instance, many who ride in it only a few times, afterwards describe it as "a large, high-priced car."

Of course, this description is not true. Yet it is made in good faith. That is the distinct impression registered by the ride.

It is interesting that such an impression persists about a car so widely known and discussed. For fully half a million now intimately know the Essex. And more than 12,000 are in service.

### Its Charm

#### Is Contagious

Frequently owners of Essex cars speak of this feeling of riding in a big car. One

"I know the Essex is not a big car. But I can't make myself believe it. Plenty of leg room, spaciousness, solidness and riding ease as smooth as a swallow's flight, undoubtedly produce this feeling. I call it the spell of the Essex."

From the first, you have noticed how men always compare Essex quality and performance with that of large, costly cars. It is not associated in their minds with small

Yet they appreciate its small car advantage, too. Its economy, steering ease and agility in threading traffic are valued by every owner.

Also, it is because the Essex is small that such quality is possible at a moderate price.

#### A Ride Reveals Essex Quality

Perhaps you have ridden in the Essex. If so you know its appeal. And you understand the pride owners manifest.

They regard it with real affection, the confidence men reserve for merit.

More than a car of unusual qualities, it is a companion. In action it seems a part of the driver, responsive to every mood. Loitering along at two or three miles an hour or facing long, fast tours cross country, the driver of an Essex is always reliant; always confident of his destination.

Few care to extend the Essex to top speed. But it is good to know that speed without limit is under foot, if wanted.

Moreover, Essex power means acceleration. It gives Essex right of way everywhere.

#### Big Car Performance Small Car Economy

Women say its appearance captivates. Its spirited lines, color and performance are smartly distinctive, among motor modes. The Essex Sedan has won special favor with the growing numbers who prefer a closed

In the Essex, men say, are met the fine qualities of performance that distinguish the best of high-priced cars, with the economy of cost and operation that is an exclusive light car advantage.

When you know the Essex you will want one. Its popularity indicates a continued shortage. Don't suffer disappointment by delay in placing your order.
